

Design Review Application Addendum: Landscape Plan

This addendum must be attached to landscape applications where a tree or shrub is to be replaced with a different species or the same species in a different location. For this application to be complete, the relevant fields must be filled in on the Design Review Application to which this addendum is attached. Please refer to the landscape section of the Design Review Manual and to the [Design Review Criteria](#) to ensure an acceptable landscape plan. Any approved application to remove a Florida Native Tree will require the member to obtain a Lee County Permit.

Provide a sketch of your lot and house and the location of each tree and shrub being removed and of each tree and shrub being added by this application.

- The plan shows property boundaries, existing vegetation, exterior walls of structures, plus window and door locations.
- The plan shows location, botanical and common names, sizes, quantities and specifications of all proposed and existing plants.
- The plan indicates with an arrow the direction of North.
- The approximate scale to be 1" equals 10' or 1/8" equals 1'.

Provide a list of all plants being removed and of those being added. Trees removed or added prior to this application should also be shown on the list but with an

| Canopy Tree | | Sub-Canopy Tree | | Shrub | |
